

**Candidates Named
For Town Offices
In Large Caucus**

The town caucus for the nomination of officers for the town to be voted upon at the annual town meeting to be held Monday, Feb. 7 was held last Friday evening at the town hall at 7:30 and a gathering of at least 150 persons were present although the highest total vote cast did not exceed 85.

Town Clerk Mrs. Josephine Haskell read the call for the caucus and named Miss C. Ina Merriman and James Dale as tellers. Joseph Field was chosen as chairman of the caucus with L. W. Robbins as clerk. Inasmuch as the purpose of the caucus is to name at least two persons to be voted upon for a choice, the following persons were nominated for the office indicated:

Town Clerk, Mrs. Josephine Haskell; Miss C. Ina Merriman; town treasurer, Charles F. Slate, Leon R. Alexander; collector of taxes, Charles F. Slate, Leon R. Alexander; selectmen, three for one year, Fred A. Holton, Myron Dunnell, Ross L. Spencer, George W. Carr, Herman Fisher, Ralph O. Leach; assessors, one for one year to fill vacancy, Fred I. Bolton, Miles E. Morgan; one for three years, Clifford Field, Willis Parker; moderator, William F. Hoehn, George McEwan; library trustee, one to fill vacancy, Carl L. Mason, Richard A. Cobb; two for three years, Miss Julia Austin, Rev. W. S. Carne, Mrs. Carroll Miller, Mrs. M. P. Stanley; school committee, one for three years, I. J. Lawrence, Ross L. Spencer; cemetery commissioner, George N. Kidder, George Slate; constables, Sam F. Alexander (for Farms), Martin E. Vorce, Harry M. Haskell, H. A. Miner (four to be chosen, no other nominations); tree warden, Dean Williams, Clinton Ware. The selectmen and the chairman of the caucus were empowered to fill vacancies.

The caucus members were in a happy frame of mind and merriment ensued in the nomination of persons who were present and who promptly declined the use of their name, but underneath it all there seemed a desire on the part of the younger element, an effort to break the slate and initiate new names and faces in the control of affairs in the town. It is rumored that several candidates named in the caucus will withdraw.

**Federal Jobless
Of Recent Census**

The results of the unemployment census which was taken throughout the country last November shows that Massachusetts is the fourth in the list with the greatest number of 248,484 totally unemployed and 135,359 partly employed. The figures for Franklin county are 1,390 totally unemployed and 1,435 partly employed. In this county 584 were listed on emergency work. No figures are available for the town of Northfield and the number of returns to the post office at the time the census was taken and announced in the press would indicate our local situation. Since November, however, the unemployment situation is more acute and the census if taken now would indicate a larger number out of work.

Frank E. Whitman

**Our Weather In
Peculiar Behaviour**

Our weather is producing quite a variety. Last week with its cold and snows was followed the first of this week with rising temperatures and Tuesday was a real spring day with thunder and lightning. A barn was struck at North Orange. And how it did rain—just poured incessantly, melting the snows and causing the brooks to overflow. The Connecticut river rose nine feet and in some places the ice broke and formed jams. Several towns including Orange and South Deerfield report streets flooded. Everywhere in low places small ponds were formed but the fear of a flood was dispated when the temperature dropped Tuesday night. Warwick brook in Northfield was a raging torrent. Tuesday night a wonderful display of the aurora borealis could be seen through the clouds. However winter is not over and we may yet see much cold and snow the remainder of this month and during February. The season's greeting to all our good friends in Florida who are missing our joys.

The Fortnightly

The next meeting of the Fortnightly will be held Friday, Feb. 11 at 3 o'clock at Alexander hall when Mrs. Elen Ey Kyburg will speak on "Significant books of the time." There will be a musical program and Mrs. Carl L. Mason will be the hostess.

The will of Charles Spencer Warner filed in Probate court last week leaves his entire estate to his widow, Lilla J. Warner and names her executrix.

**West. Mass. Electric
To Increase Stock
For Improvements**

The Western Massachusetts Electric Co., has petitioned the State Dept. of Public Utilities to be permitted to issue 30,000 additional shares of stock to be offered to stockholders at \$25 a share to be used for permanent extension and improvements. It also asks that the par value of its common stock be reduced from \$100 to \$25 par value. Following this reduction there would be outstanding 136,356 common shares. The proceeds of the new issue besides providing for the extensions and improvements would be used to the payment of indebtedness now amounting to \$450,000 and would also include the calling and redemption of 18,000 shares of preferred stock.

**Founder's Day
To Be Observed**

The Northfield schools will celebrate the 101st anniversary of the birth of their founder, Dwight L. Moody, on Friday, February 4, and the Founder's Day speaker will be Dr. Carl Heath Kopf, pastor of the Mount Vernon church in Boston where Moody, world-famous evangelist and educator, was converted at the age of 17.

Dr. Kopf, who was president of the Boston Moody centenary committee last year, wrote a series of seven newspaper articles on the life of Moody and gave a similar series of radio talks on the same subject last year. Mt. Hermon school for boys and Northfield seminary for girls, founded by Moody 60 years ago, combine to make the Northfield Schools with 1100 students, the largest private preparatory institution in the United States.

**Speaker Engaged

**Financial Condition
Of Town Is Good
So Say Auditors**

The auditors of the State who have been going over the accounts of the town in its various departments have finished their task and the complete report will be published in the annual town report, together with a complete balance sheet. The document was received from Boston last week and the report says that "the audit indicate the town is in very good financial condition."

A press report emanating from Boston states that "Assessor of Northfield raised \$400 less for the county tax in 1937 than the amount certified to them to be assessed in accordance with law, and will have to provide for this amount in the 1938 levy, according to a report of the audit of the town's accounts for the period from Feb. 19 to Dec. 31, 1937. The balance sheet of the town as of the audit date indicates it is in very good financial condition."

The balance sheet as of the audit date showed total assets of \$47,182.44, receivable, levies of 1935, 1936 and 1937, \$22,574.90; motor vehicle excise taxes outstanding, levies of 1934-37, inclusive, \$1638.05; tax titles, \$611.32; underestimates to be raised for state tax, state parks and reservations tax and county tax, plus two overdrawn highway accounts, \$2175.35.

Liabilities included: Reserve fund, overlay surplus, \$3281.18; overlays surplus revenue, \$31,878.46. The town had 14 trust accounts totaling \$51,093.02.

A careful study of the report will show that certain departments exceeded their appropriation but which have been adjusted. Such have been cautioned in the matter.

**Xmas Seal Sale
Exceeds Last Year**

Mrs. Marion E. Lilly who was the representative of the Franklin County Public Health association in the sale of the Christmas seals for Northfield the past season now reports that the sum of \$192.60 was received a trifle larger than the sum of \$190.05 of last year. This is the largest amount Northfield has ever contributed. Any who may have overlooked the necessity of returning the stamps now in their possession should do so at once that the entire list may be cleared.

To Aid Chinese

The American Red Cross is to raise \$1,000,000 for the sorely distressed Chinese and Admiral Grayson, the Red Cross chairman will immediately set the machinery in motion to secure the needed funds through the various chapters in the country. President Roosevelt told Admiral Grayson that he was convinced that there was a widespread desire upon the part of our citizens to be of some assistance to the Chinese people in the distress which has fallen upon them. The Red Cross has already forwarded some \$181,000 to alleviate suffering and provide medical supplies. The work in China will be carried on by a committee of Americans appointed by the Ambassador. Just as soon as the Franklin County chapter is advised of plans, this paper will make an announcement of the appeal to Northfield residents.

The many friends of Mrs. Emma Jane Witt will regret to learn of her death which took place at her home in Keene, N. H. last Friday following an illness of several weeks at the age of 75. Dr. Paul D. Moody Speaks At Hermon

Dr. Paul D. Moody, president of Middle college and son of D. L. Moody, addressed the vespers service at Mt. Hermon school last Sunday on the subject, "Knowledge and Action."

Dr. Moody said in part: "As students we naturally lay emphasis on knowledge. That is why we come to school or college. But in the midst of our studying we should always remember there are some fields in which knowledge is not enough. We may know all about chemistry of food, but that knowledge will not feed starving people. It is action in these as well as other fields, rather than knowledge that is necessary."

"The mistake that many of us make is that we think we need to wait for knowledge before action. Action without knowledge in some fields is fatal, but there are other fields in which the only way we can have knowledge is by action."

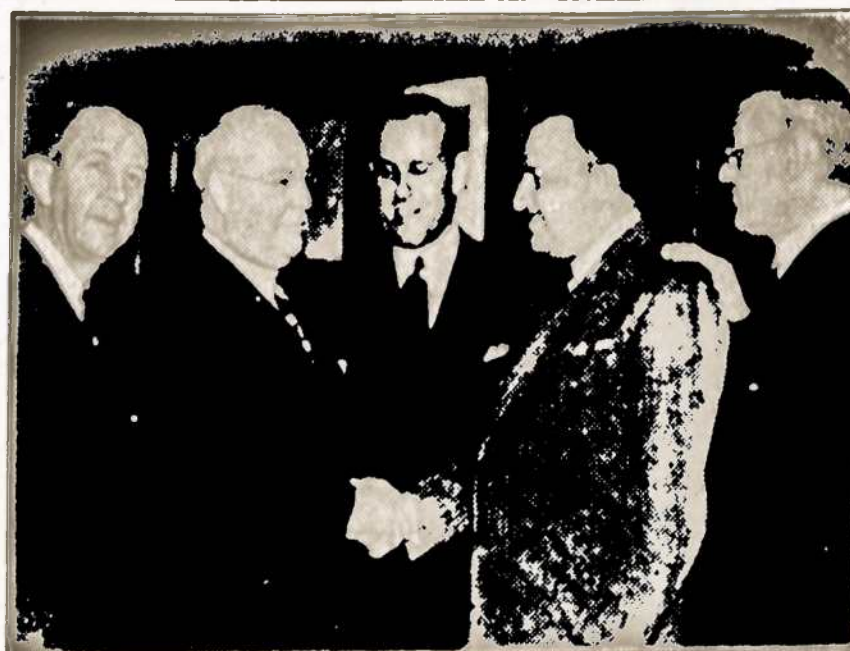

"We learn the value of prayer, not by hearing what people say about it, but by praying. We learn about the goodness of God, not by discussions of it but by going upon the supposition that God is good. In the realm of the spirit, such knowledge as we can get follows our actions. We cannot wait for knowledge. We acquire it by actions."

Then What?

Then is the time that we begin to relax and enjoy our day. It may be with our newspaper or magazine, it may be the movies—but usually it means using our eyes under artificial light. Unfortunately it is often poor light that causes us to strain our eyes. And at forty, we find that three out of five people have defective vision.

It is too bad, because it is easy to have good light. It is merely a matter of having more light and less glare.

We can have more light simply by increasing the wattage of our lamps. Try a 100-watt bulb in various rooms and see what a difference it makes. (Incidentally, a 100-watt bulb gives as much light as two 60-watt bulbs.)

For less glare, see that your lights are properly shaded. The new I. E. S. lamps give a soft, diffused light that is easy on your eyes.

Aunt Minerva's Specialty

Dear Club Members:
AUNT MINERVA is my aunt and hence the children's great aunt. But they want to claim her for all their own. Whenever an afternoon call is suggested, they are quick to clamor that we favor Aunt Minerva with a visit.

For Aunt Minerva has a secret which the children share. And the secret is—her cookies.

jar. This is six 1/2 pint well-stocked with animal cookies, chocolate men, and other specialties all her own. With the cookies, she never fails to serve an extra-tall glass of milk. So it's no wonder the children are so "inty" with Aunt Minerva. Here's the Animal Cracker secret, which you'll want to try, I know:

8 squares of semi-sweet or dipping chocolate

Line bottom of loaf pan, about 8x4 inches, with waxed paper, letting paper extend in 2-inch tabs at each end. Heat chocolate over boiling water until partly melted; then remove from boiling water and stir rapidly until entirely melted. Pour in pan. When partly firm, stand animal crackers in chocolate at regular intervals. Cool until nearly firm and mark off in bars, 1x2 inches, having an animal cracker on each bar. Let stand in cool place to harden. Lift out of pan with paper tabs; cut in bars. Makes 24.

Accompanied by delicious, cold milk in a really tall glass, Aunt Minerva's special cookies are a huge success.

Maiden Auntie: Going down that dark street I saw a man. Oh how I ran!

Little Bobbie: Did you catch him, auntie?

She: Don't you know that the stuff you're drinking is slow poison?

Tommy: S'pose so. That's where I ails do get it.

A farmer's son, just home from school, seemed to take pride in using college slang, and at the breakfast table called out: "Mother, chase the cow down this way!"

Mother was equal to the occasion, and remarked to her husband: "Give the poor calf some milk. Don't you hear him bawling for it?"

Bobby: Daddy, what's the meaning of deluxe?

Daddy: You pay about 50 percent more for de looks.

A sailor, after placing some flowers on a grave in a cemetery, noticed an old Chinaman placing a bowl of ice on a nearby grave. The sailor asked: "When do you expect your friend to come up and eat the rice?"

The old Chinaman replied with a smile: "Same time your friend come up to small flowers."

SERVICE - COURTESY - SATISFACTION

Congressman Treadway will speak on "The New Tax Bill" over station WOR Sunday evening at 7 o'clock.

1st Farmer: I suppose you'll miss your boy now he has gone back to college?
2nd Ditto: Yep. He's got all the livestock so they won't move unless he gives 'em the college yell, an' I can't remember what it is.

She: Before we married you use to call me long distance just to hear my voice.
He: Well, now you won't let me get far enough away to use long distance!

Teacher: And what makes you think two heads are not better than one?
Willie: Well, there would be four ears to wash.

"Still" In Gill

Raided Tuesday

Federal agents watched from the Northfield side of the Connecticut river for weeks the activities of a farm on the Gill shore and with the aid of telescopes had revealed to them just what was doing. On Tuesday when much activity was apparent they made a raid and arrested several men on charges of violating the internal revenue laws and seized a 1000 gallon still. The men arrested were taken to Worcester as federal prisoners but were released under bonds for appearance before the Federal Commissioner next Tuesday. Bail was fixed at \$2500 in each case. Louis Marino of Boston said to be the leader of the enterprise was held in \$5000 bail.

Others were Henry Kubick of Millers Falls, Joseph Wisniewski of Gill, Joseph Allen of Newton, Ignace Cyhowski of Millers Falls and Fred Pfeffer of Greenfield. Officials said that a seventh man, Walter Cyhowski, of Millers Falls, was taken into custody on a warrant and that bail would be \$2500. Agents said they found the still in an isolated farm and that the property is owned by the Turners Falls Power and Electric Co.

BADGER FOUND GUILTY

Herbert L. Badger, Jr., the 25-year-old married man who came to Northfield and carried away Elizabeth Bayley of Westwood, a 14-year-old delegate to the Christian Endeavor convention and transported her to Florida where they were arrested, was given three years in a Federal penitentiary by Federal Judge George C. Sweeney in Boston, Thursday. It was a jury trial and the verdict was given in less than an hour.

Mrs. Winterbottom, daughter of Mrs. Frank Merrifield, is now working part time at Youth Hostel headquarters, assisting the staff in meeting the ever-increasing load of mail.

Doing Field Work

Bill Nelson, who is the New England field worker for the Youths Hostel has just returned from a trip through Rhode Island and the southern New England loop. Rhode Islanders have been enthusiastic AYH supporters for several years and want a chain of hostels through their state. As a result of this interest Bill Nelson was sent to lay out a hostel loop. He reports a skeleton loop of five hostels which connects the hostel in Wrentham, Mass., with the hostel in East Haven, Conn. As this chain runs along the Connecticut shore it is called the Salt Water Loop.

Archie Stark, son of Mr. Steven Stark, retired teacher of Mount Hermon school, sends back enthusiastic reports from Pennsylvania where he is extending the hostel chain to meet the New England loop. He is working north from the Horse Shoe Trail at Reading, Pa., to the Blue Mountain, along the foot of the mountains to the Delaware Water Gap, on to Port Jervis crossing the Hudson at Newburg and continuing in a straight line to Pawling, where a hostel is already located. Archie has already set up four hostels in this proposed chain.

SIX FEET

My little rough dog and I
Live a life that is rather rare.
We have so many good walks to take,
And so few hard things to bear—
So much that gladdens and recreates,
So little of wear and tear.

Sometimes it blows and rains,
But still the six feet ply;
No care at all to the following four,
If the leading two know why.
'Tis a pleasure to have six feet,
We think,
My little rough dog and I.

And we travel all one way;
'Tis a thing we should never do
To reckon the two without the four,
Or the four without the two;
It would not be right, if anyone tried,
Because it would not be true.

And who shall look up and say
That it ought not so to be,
Though the earth that is heaven enough for him
Is less than that to me?
For a little rough dog can wake a joy
That enters eternity.

EDITORIAL

The articles in the town warrant indicate what our citizens will be thinking about during the next week. The approach to the same at the time of the town meeting should be made in an intelligent manner and there is no excuse for anyone to become bewildered. We will all have our personal opinions but it is hoped that these opinions will not be governed by any selfishness or spirit of hatreds but that they will be the conclusions of fairness and a common regard for the interests of the whole people. Economies must be kept in mind in behalf of those who have to pay the bills.

They tell us that we need a sales tax to raise more money for the expenses of the state. We are paying on most everything now so why not a sales tax? It's one way to get money that seems to be easy. It doesn't interfere with a generous buyer who wants and buys an automobile, a radio, a refrigerator, a washing machine, or other of our larger needs but when you realize that a sales tax must be placed on all sales and all must pay, the tax will pinch hard and especially will be frowned upon by those least able to pay. If the adoption of the sales tax would eliminate other taxes it might afford an equitable basis for its adoption but if it adds rather than subtracts from the loads that taxpayers are bearing it will prove a most unpopular tax.

The Back Yard Gardener

While traveling around the old Bay State I'm impressed, perhaps it's repressed, with the amount of wilderness which we have. I have been told by foresters that better than 50 per cent of our state is in this cut-over, helter skelter brush land; and even though I'm not a land owner I can't help noticing such things which indirectly affect evening a back-yard gardener. I think we could take a lesson from Sweden on this forestry

business. Over there they have a general forest law which went into effect about 30 years ago, which says that "Land which is best suited for the growing of wood should be used for that purpose and such land must be continuously productive."

And then to help the farmer or the land owner, the Swedish people have established a county forestry system. County boards administer the law and each board employee is a trained and experienced forester as adviser and administrator.

I have been told by men who have visited Sweden that nowadays one would have difficulty in convincing the Swedish farmer that systematic forest practice is not a good thing for both himself and the country. I understand that they award prizes for the best job of handling a farm forest; handling it in such a way that the owner can take from it his saw timber, posts, poles, ties, fuel wood, etc., and still have a productive forest. Personally I don't see why the same thing couldn't be applied in Massachusetts. They say that the small owner—in other words the Swedish farmer—owns 44 per cent of all the forest area, that operating companies own 34 per cent and public agencies own the remaining 22, and this distribution is very similar to that in the U. S. A.

While we are on the subject of forestry I suppose you have heard that the 4-H club folks have started on their third campaign against Mr. Tent Caterpillar and his family. The past two years they did such excellent work that the legislature changed certain laws to enable the state department of agriculture to promote this work through awards. A year ago 450 million caterpillars were put out of business and the year before 150 million were sent to bug heaven. And with more interest than ever in the campaign, Massachusetts' woodlands should be pretty free of ten caterpillars by 1939. Well, here's wishing good luck to the 4-H boys and girls in their war on this woodland pest.

Christian Endeavor

National Christian Endeavor week will be observed Jan. 30 to Feb. 6. A union meeting of all societies in Franklin and Hampshire counties will be held at the Congregational church in Whately on Wednesday evening, Feb. 2. Dates fixed for future events include the annual convention for Franklin county on Tuesday, April 19. The annual summer conference at Northfield will be from July 4 to 11 inclusive, the annual state convention in the Edward church at Northampton, Oct. 7 to 9 and a Franklin county rally about Nov. 11. Miss Sophie Searles of the local Congregational church is a member of the official board as junior superintendent.

Charles M. Upham, engineer-director of the American Road Builders' association, led into Cleveland more than 25,000 road builders from all parts of the world for the 35th annual convention and road show of the association which was held last week. All the 48 states and the five continents had representatives at the 1938 conclave which was the largest in the history of the association.

Rafol John Zabko

At the Farren Memorial hospital late last Thursday Rafol John Zabko of Northfield Farms died after a short illness at the age of 60 years. He was born in Poland and came to America 35 years ago. For 14 years he resided at South Deerfield but for the last 22 years has resided in Northfield where he followed farming.

Mr. Zabko was a member of St. John's church in Millers Falls and of the St. Stanislaw society of the same town. Besides his wife, Malivina (Leszkiewicz) Zabko, he is survived by eight sons, Leon of Syracuse, N. Y., Stanislaw of the U. S. Navy stationed in California, Edward, John, Vincent, Joseph, Chester and William at home; four daughters, Mrs. John Happer of Syracuse, Mrs. Frank Gibbs of Springfield and Florence and Marian at home; a brother, Bronislav of Cleveland, O., and three grandchildren.

The funeral was held Sunday afternoon from the home followed by a requiem service in St. John's church, Millers Falls, and burial was in Our Lady of Czestochowa cemetery at Turners Falls.
